SUMMARY ASSESSMENT

You stand out with the Scientist profile. Your analytical thinking skills are at 92% and your grit score was measured at 82. Your Holland profile code is EIR, which directs you towards entrepreneurial & research fields.

This report contains game-based behavioral analysis results. Results reflect general tendencies and do not replace professional career counseling.

COGNITIVE DEVELOPMENT STAGE

Concrete Operational Stage (Early)

LEARNING PROFILE

LEARNING STYLE

Visual Learner

Learns better with shapes, diagrams, and visual materials.

ATTENTION SPAN

Medium

Normal attention span, works more efficiently with breaks.

STRESS RESPONSE

Moderate

Normal stress response, performs better in a supportive environment.

MOTIVATION TYPE

Intrinsically Motivated

Enjoys working for their own goals, can work independently.

SOCIAL LEARNING

Individual Work

More efficient when working alone.

PERFORMANCE ANALYSIS

Fast and Accurate

Speed Profile

Successful in quick thinking and making correct decisions.

Medium

Consistency

Performance may vary depending on the situation.

Improving

Improvement

Oyunlar boyunca performansı artıyor - öğrenme hızı yüksek.

STRENGTHS & DEVELOPMENT AREAS

Strengths

Grit and Persistence

100%

Can continue without giving up in the face of difficulties.

Problem Solving

97%

Can produce effective solutions when facing difficulties.

Development Areas

Creative Thinking

75%

Can be supported with open-ended activities and art projects.

Memory and Focus

64%

Can be supported with memory games and focus exercises.

PARENT RECOMMENDATIONS

Nurture Scientific Curiosity

Potential Development

Your child thinks analytically and systematically. Support these abilities.
